

Suitcase TeamSync

Easily manage and share fonts across your creative team.
Font Management for Small Creative Teams

Sync Up and Share Your Fonts Across Your Team

Give every team member—including in-house staff, external freelancers, publishers, and others—immediate and easy access to your licensed font collection.

Instant Access to Font Libraries

Reduce the time previously spent on installing, removing, and managing individual fonts and their licenses. Simply invite users to your cloud-based repository for immediate font access.

Easy to Implement & Maintain

No IT support? No problem. All you need is a browser and an Internet connection to connect and manage your team's user access to your font libraries in the cloud.

Trusted Font Management

Included FREE with Suitcase TeamSync is Suitcase Fusion—empowering you with the ability to organize, find, and activate fonts in your creative applications. Suitcase Fusion is the font manager trusted by more than 100,000 creative professionals.

Easy font discovery

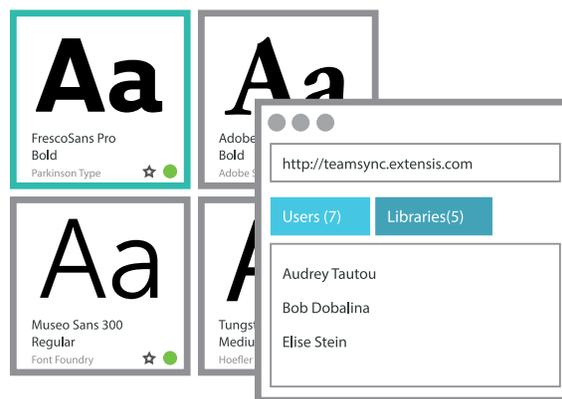

Quickly find the right font for the job with browse and search options and customizable font previews of your collection.

Auto-activation and font access in Adobe applications

The right fonts automatically turn on when you open files in your creative design applications, including Adobe InDesign, Illustrator, and Photoshop—and your entire font collection is also instantly available through the Extensis plugin panel.

Guaranteed font accuracy

Patented Font Sense technology ensures that the precise font is activated, saving you from missing font errors and inconsistencies.

Highlights

- » Streamlined, professional font management provides an easy way to share font collections
- » Synchronize and share team's font library using the Extensis cloud
- » Easy to set up and start using immediately
- » Powered by Amazon Web Services technology, so team fonts are always backed up and safe
